Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE _____ MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. This application is in condition for allowance except for the following formal matters:

In drawings (filed on 12/30/04), FIG. 8 should be exchanged to FIG. 9.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

2. The following is an examiner's statement of reasons for allowance: none of prior art of record taken alone or in combination shows a system comprising a first transformer set including a delta-delta transformer electrically coupled to a first voltage controller and having an input electrically coupled to the power source for receiving a first voltage signal with a first frequency and producing a second voltage signal with a second frequency, and the output coupled to a load; a second transformer set including a wye-delta transformer electrically coupled to a second voltage controller and having an input electrically coupled to the power source for receiving a first voltage signal and the output coupled to a load, the wye-delta transformer causing a phase shift to the first frequency such that the second transformer set produces a third voltage signal with a third frequency being output of phase of the second frequency; both sets of transformer being electrically coupled in parallel such that the second voltage signal and the third voltage signal combine to produce a fourth voltage signal with a fourth frequency at the load (as recited in claims 1-3); or a multiple redundant cooperating transformers

comprising specific elements along with particular electronic connections and function(s) of each of those elements as recited in claims 4-6 of the instant application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
